The Next Generation of Aviation & Aviators

The Eastern Carolina Aviation Heritage Foundation (ECAHF) needs your support to share the story of the advancement of military aircraft and the many who have made it possible in eastern North Carolina. Also, we need you to join us in encouraging today's students to pursue science, technology, engineering, and math (STEM) skills through interactive exhibits and programs. Together our joint forces will recognize our neighbors' roles in advancing military aviation since 1942 when MCAS-Cherry Point was commissioned and encourage our region's continued participation through a new generation of aviation enthusiasts and skilled workers.

Members Provide the Resources

for the ECAHF to preserve and add interactive, STEM-related exhibits as well as to provide programming to educate students both in their schools and in our exhibit center. Please consider being a member each year.
