

Electronic Warfare: *Cherry Point's Role in National Defense*

PLEASE JOIN THE EASTERN CAROLINA AVIATION HERITAGE FOUNDATION FOR OUR 7TH ANNUAL GALA ON FEBRUARY 26, 2016

As our nation's "Force in Readiness", the Marines have always answered and will continue to heed our nation's call to respond to threats that stretch the boundaries of warfare and technology...as well as our own imaginations. MCAS Cherry Point's history played—and its future will play—a pivotal role in the development, advancement, and employment of electronic warfare. What exactly is electronic warfare and how has it been used? How will it impact military operations in the future?

- 7th Annual Gala
- February 26, 2016
- 5:30pm
- Havelock Tourist & Event Center
- Plated Meal
- Cash Bar
- Business Attire

“ *We have been doing some things to try to address the problem. This is a serious problem for the country. It is not just missiles...it is other things such as electronic warfare capability, anti-satellite capability – a number of things... that are being developed very consciously to defeat the American way of projecting power. We need to respond to that. – Frank Kendall, Under Sec. of Defense for Acquisition, Technology and Logistics* ”

Our neighbors have responded to it! Hear from Marines of the 2d Marine Aircraft Wing and members of our eastern NC community, those who span the history of electronic warfare...a history inextricably linked with our region and to MCAS Cherry Point. Once again, Major General Thomas A. Braaten, USMC (Ret) will be our Master of Ceremonies. Join us for an educational and entertaining evening of comradery, food, and fun. Individual tickets are available for \$55 or 2/\$100.
