

2023 EASTERN NORTH CAROLINA ENGINEERING CAMP APPLICATION

Craven Community College
305 Cunningham Blvd
Havelock, NC

High School: July 10th – 14th, 2023

Middle School: July 17th – 21st, 2023

Craven Community College, in partnership with the Eastern Carolina Aviation Heritage Foundation, will be offering a week-long, non-residential summer day camp for students on the Craven Community College Havelock campus. Local STEM teachers will lead the camp in partnership with Fleet Readiness Center East engineering staff and NC State University Faculty.

The camps operate from 9:00 am to 3:00 pm, Monday through Friday. Lunch and snacks will be provided daily. **CDC guidelines will be followed, and safety protocols will be practiced to help protect all students, staff, and volunteers.** The total camp cost is \$250.00 per student, and limited scholarships may be available for students with demonstrated financial need.

Application Process:

1. Complete the application
2. Give the name and contact information of a teacher, school counselor, or principal to complete the online endorsement form.

Home school students may choose an adult who interacts with the student regularly and can speak to their abilities, interests, character, and suitability for attending camp.

3. Have the student complete a statement on why they would like to attend camp
The student letter is required and very important in the selection process, so the student should take their time composing their statement.

4. **If applying for a scholarship**, obtain a letter of demonstrated financial need from the school counselor.

Scholarships can be requested for need-based students. Since we do not wish to receive personal financial information from families, we rely on the school to indicate if a family has demonstrated need. Generally, participation in the free and reduced lunch program is an indicator, but a school counselor or other school official may be able to speak to other factors influencing financial need. **For homeschooled students, parents should write a letter for the scholarship request indicating factors influencing financial need without providing specific financial information.** Please submit this letter with the other components of the application.

5. Email all the above to the address at the bottom of the application.

*** Do not send any money at this time ***

Applications submitted after the deadline will only be considered if there are openings in the camp. We consider several factors in selecting attendees from the pool of applicants. **We rely heavily on the endorsement letter and the student statement of why they want to attend camp to make decisions.** We also select students from a cross-section of backgrounds and geographic areas and invite students who may be interested in engineering but have little or no background, as well as students who already have some previous experiences. Application date can play a small role when all other factors are equal. *Students will be notified by **April 24th, 2023**, if they have been accepted to the camp or placed on a waiting list.*
